Progress on homes is varied with more at units that were able to be weather tight before snow arrived. We have two more homes planned for early spring starts.

Also note:

Our 40 unit bare land strata continues to work through the approval process. We have now decided to put in mountable concrete curbs on strata road to eliminate an open ditch design. We have engaged an architect to do 4 – 6 concept designs for the uphill and down slope lots. More when we get there.
