NEWSLETTER

TO ALL LOT OWNERS:

Please see that attached picture of the garbage bins. This is not the way to place your garbage in the container. The removable safety fence indicates which doors are full. It would be appreciated if residents place their refuse in the empty part of the bins!

A reminder that batteries are a product that must be dropped off at an approved recycling center, NOT at the Bin site.

An ongoing reminder that Construction waste is NOT accepted here. If we determine who deposits type of waste, we will have no option but to invoice the resident directly. Please advise your contractors accordingly.

Lastly, a reminder that the 60 km/h speed limit has been installed by the Ministry of Transportation and Infrastructure. Please respect all users of the road.

Thank you.

F.R. Rizzardo. A.Sc.T., GSC
